General Instructions

Future Developments

For the latest information about developments related to Form 8915-F and its instructions, such as legislation enacted after they were published, go to [IRS.gov/Form8915F](https://www.irs.gov/Form8915F).

When these instructions went to print, legislation was pending in

Congress that would elevate certain 2021 disasters and the 2020 Washington (4593-DR-WA) disaster to the status of qualified disasters. Go to Recent Developments under [IRS.gov/Form8915F](https://www.irs.gov/Form8915F) to see whether that legislation was enacted.

Helpful Hints

Form 8915-F can be e-filed. Form 8915-F can be completed electronically and e-filed with your tax return.

Form 8915-F is a forever form. Form 8915-F is a redesigned Form 8915. Beginning in 2021, additional alphabetical Forms 8915 (that is, Form 8915-G, Form 8915-H, etc.) will not be issued. The same Form 8915-F will be used for distributions for qualified 2020 disasters (and qualified 2021 and later disasters, if enacted) and for each year of reporting of income and repayments of those distributions. The boxes you check in items A and B will help us determine the exact year of the form you are filing, and the year of the qualified disasters, qualified disaster distributions, and qualified distributions you are reporting. Earlier Forms 8915 had a different alphabetical Form 8915 for each year of disasters and a different form for each year the alphabetical form existed. See [How Do I Distinguish My Form 8915-F and Its Disasters From Other Forms 8915-F](#) and [When Should I Not Use a Form 8915-F](#), later.

How Do I Distinguish My Form 8915-F and Its Disasters From Other Forms 8915-F?

Name of form. These instructions will use different names to refer to your Form 8915-F depending on the boxes you check in items A and B at the top of page 1 of your Form 8915-F. For example, if you checked the 2021 box in item A and the 2020 box in item B, your form will be referred to in these instructions and elsewhere as 2021 Form 8915-F (2020 disasters). See [Form 8915-F \(2020 disasters\)](#) next.

Form 8915-F (2020 disasters). Check the 2020 box in item B of your Form 8915-F if you were adversely affected by a qualified 2020 disaster listed in [Table for Qualified 2020 Disaster Areas](#) in [Appendix B, Qualified Disaster Areas by Year](#) at the end of these instructions, and:

- A qualified disaster distribution described in [Qualified 2020 disaster distribution requirements](#), later, was made to you;
- You are repaying, or have income from, a coronavirus-related distribution or other qualified 2020 disaster distribution reported on Part I of 2020 Form 8915-E; or

- You received a qualified distribution described in [Qualified 2020 disaster areas](#) under [Qualified Distribution for the Purchase or Construction of a Main Home in Qualified Disaster Areas](#), later.

Your form will be called Form 8915-F (2020 disasters).

The year of the form will be the year you checked in item A at the top of page 1 of your Form 8915-F. If you checked the 2021 box in item A, your form will be called 2021 Form 8915-F (2020 disasters).

Names of disasters and distributions.

Except when referring to them generally, these instructions will refer to the different qualified disasters and qualified disaster distributions by their specific names using the year you checked in item B at the top of page 1 of your Form 8915-F.

Purpose of Form

Use Form 8915-F to report:

- Qualified 2020 disaster distributions made in 2021 (coronavirus-related distributions can't be made after December 30, 2020);
- Repayments of qualified 2020 disaster distributions;
- Income in 2021 and later years from qualified 2020 and later disaster distributions; and
- Qualified distributions received on January 1, 2021, for the Washington (8593-DR-WA) disaster.

Note. To the extent relevant legislation is enacted, Form 8915-F will also be used to report:

- Qualified 2021 and later disaster distributions;
- Qualified 2020 disaster distributions that can be made in 2022;
- Repayments of qualified 2021 and later disaster distributions; and
- Other qualified distributions received in 2021 and qualified distributions received in 2022 and later years.

Purpose of These Instructions

These instructions provide detailed information for use with your 2021 Form 8915-F. For your convenience, [Appendix A, Which Lines Should I Use](#), later, provides, as well, the lines you should complete on your Form 8915-F for all tax years applicable to 2020 disasters.

When Should I Not Use a Form 8915-F?

Reporting coronavirus-related and other distributions for qualified 2020 disasters made or received in 2020. This form replaces Form 8915-E for tax years beginning after 2020. Do **not** use a Form 8915-F to report qualified 2020 disaster

distributions made in 2020 or qualified distributions received in 2020 for qualified 2020 disasters.

You will still use 2020 Form 8915-E to report coronavirus-related and other qualified disaster distributions made in 2020 and to report qualified distributions received in 2020 for qualified 2020 disasters.

Qualified 2019 and earlier disasters. Do not use Form 8915-F to do the following.

- Repay qualified 2017 disaster distributions. Use Form 8915-B for those repayments.
- Repay qualified 2018 disaster distributions. Use Form 8915-C for those repayments.
- Repay, and report income from, qualified 2019 disaster distributions. Use Form 8915-D for those repayments and income.

Which Lines Should I Complete?

If you e-file your return, the software you use may determine which lines you need.

You might not need to enter amounts on each line of your Form 8915-F (2020 disasters). The tables in [Form 8915-F \(2020 Disasters\): Lines To Use](#), later, provide the lines you need to complete on Form 8915-F (2020 disasters) for each year of the form. The lines you use will depend on:

- Whether qualified disaster distributions were made to you,
- Whether you have received qualified distributions,
- Whether you are recognizing income from distributions, and
- Whether you are repaying distributions.

Who Must File

File Form 8915-F (2020 disasters) for the year you checked in item A at the top of page 1 of the form if any of the following apply to you for 2021 for your 2020 disasters.

- A qualified disaster distribution was made to you from an eligible retirement plan.
- You received a qualified distribution.
- A qualified disaster distribution was made to you in a prior year that you are including in income in equal amounts over 3 years and the 3-year period has not yet lapsed.
- You made a repayment of a qualified disaster distribution.

When and Where To File

File your Form 8915-F with your Form 1040, 1040-SR, or 1040-NR for the year checked in item A at the top of page 1 of your Form 8915-F. You will file your 2021 Form 8915-F (2020 disasters) with your 2021 Form 1040, 1040-SR, or 1040-NR.

The timing of your distributions and repayments will determine whether you need to file an amended return to claim them. To determine whether you need to amend your Form 8915-F, see [Amending Form 8915-F](#), later.

What Is a Qualified Disaster Distribution?

For 2021, qualified disaster distributions are:

- The qualified 2019 disaster distributions for the Puerto Rico Earthquakes (DR-4473-PR) reported on 2021 Form 8915-D, or
- The qualified 2020 disaster distributions for qualified 2020 disasters reported on 2021 Form 8915-F (2020 disasters).

Coronavirus-related distributions can't be made in 2021.

Qualified Disaster Distribution

How Is a Qualified Disaster Distribution Taxed?

Generally, a qualified 2020 disaster distribution is included in your income in equal amounts over 3 years. However, if you elect, you can include the entire distribution in your income in the year of the distribution.

On your 2021 Form 8915-F (2020 disasters), lines 11 and 22, you must either spread all the income for all your qualified 2020 disaster distributions made for 2021 over 3 years or include all the income from those distributions in 2021.

Any repayments made before you file your return and by the due date (including extensions) reduce the amount of the distribution included in your income.

Also, qualified 2020 disaster distributions aren't subject to the additional 10% tax on early distributions.

If a taxpayer who spread the income from a qualified 2020 disaster distribution over 3 years dies before the last tax year of that 3-year period, the distribution may no longer be spread over 3 years. The remainder of the distribution must be reported on the return of the deceased taxpayer.

Qualified Disaster Distribution Requirements

*A coronavirus-related distribution can't be made after 2020. Also, a distribution is **not** a qualified 2020 disaster distribution or a qualified 2021 disaster distribution if it is listed in [Distributions that are not qualified disaster distributions](#), later. See [Limit](#), later, for the dollar limit on qualified disaster distributions.*

Qualified 2020 disaster distribution requirements. Qualified 2020 disaster distributions made in 2021 are reported on 2021 Form 8915-F (2020 disasters) and must meet the following criteria. You must meet these requirements separately for each of your disasters that you are reporting on 2021 Form 8915-F (2020 disasters).

1. The distribution was made no later than June 24, 2021.

2. Your [main home](#) was located in a qualified 2020 disaster area listed in [Table for Qualified 2020 Disaster Areas](#) in [Appendix B](#) at any time during the disaster period shown for that area in that table. See [Main home](#), later. The qualified 2020 disaster area is the state, territory, or tribal government in which the disaster occurs.

3. You sustained an economic loss because of the disaster(s) in (2) above. Examples of an economic loss include, but aren't limited to: (a) loss, damage to, or destruction of real or personal property from fire, flooding, looting, vandalism, theft, wind, or other cause; (b) loss related to displacement from your home; or (c) loss of livelihood due to temporary or permanent layoffs.

If (1) through (3) apply, you can generally designate any distribution (including periodic payments and required minimum distributions) from an [eligible retirement plan](#) as a qualified 2020 disaster distribution, regardless of whether the distribution was made on account of a qualified 2020 disaster. Qualified 2020 disaster distributions are permitted *without regard to* your need or the actual amount of your economic loss. See [Eligible retirement plan](#), later, for the list of plans from which qualified 2020 disaster distributions can be made.

A reduction or offset of your account balance in an eligible retirement plan (other than an IRA) in order to repay a loan can also be designated as a qualified 2020 disaster distribution. See [Distribution of plan loan offsets](#), later.

Distributions that are not qualified disaster distributions. The following distributions are **not** qualified disaster distributions.

- Corrective distributions of elective deferrals and employee contributions that are returned to the employee (together with the income allocable thereto) in order to comply with the section 415 limitations.
- Excess elective deferrals under section 402(g), excess contributions under section 401(k), and excess aggregate contributions under section 401(m).
- Loans that are treated as deemed distributions pursuant to section 72(p).
- Dividends paid on applicable employer securities under section 404(k).
- The cost of current life insurance protection.
- Prohibited allocations that are treated as deemed distributions pursuant to section 409(p).
- Distributions that are permissible withdrawals from an eligible automatic contribution arrangement within the meaning of section 414(w).
- Distributions of premiums for accident or health insurance under Treasury Regulations section 1.402(a)-1(e)(1)(i).

Limit. For each qualified 2020 disaster, the total of your qualified disaster distributions from all plans is limited to \$100,000. If you have distributions from more than one type of plan, such as a 401(k) plan and an IRA,

and the total on line 5, column (a), of your Form 8915-F exceeds your total available qualified disaster distribution amount from line 1e of your Form 8915-F, you may allocate the amount among the plans by any reasonable method when determining the amounts on lines 2, 3, and 4 of column (b).

Eligible retirement plan. An eligible retirement plan can be any of the following.

- A qualified pension, profit-sharing, or stock bonus plan (including a 401(k) plan).
- A qualified annuity plan.
- A tax-sheltered annuity contract.
- A governmental section 457 deferred compensation plan.
- A traditional, SEP, SIMPLE, or Roth IRA.

Distribution of plan loan offsets. A distribution of a plan loan offset is a distribution that occurs when, under the terms of a plan, the participant's accrued benefit is reduced (offset) in order to repay a loan. A distribution of a plan loan offset amount can occur for a variety of reasons, such as when a participant terminates employment or doesn't comply with the terms of repayment. Plan loan offsets are treated as actual distributions and are reported in box 1 of Form 1099-R.

Main home. Generally, your main home is the home where you live most of the time. A temporary absence due to special circumstances, such as illness, education, business, military service, evacuation, or vacation, won't change your main home.

Additional Tax

Qualified 2020 disaster distributions aren't subject to the additional 10% tax (or the 25% additional tax for certain distributions from SIMPLE IRAs) on early distributions and aren't required to be reported on Form 5329. However, the amount on line 7 of your Form 8915-F may be subject to the additional tax. See the Instructions for Form 5329 on how to figure the additional tax on your distributions.

Note. If you choose to treat a distribution as a qualified 2020 disaster distribution, it is not eligible for the 20% capital gain election or the 10-year tax option. For information on those options, see the instructions for Form 4972.

Repayment of a Qualified Disaster Distribution

If you choose, you can generally repay any portion of a qualified disaster distribution that is eligible for tax-free rollover treatment to an eligible retirement plan. Also, you can repay a qualified disaster distribution made on account of hardship from a retirement plan. However, see [Exceptions](#), later, for qualified disaster distributions you can't repay.

Your repayment can't be made any earlier than the day after the date you received the qualified disaster distribution. You have 3 years from the day after the date you received the distribution to make a repayment. The amount of your repayment cannot be more than the amount of the original distribution. Amounts that are repaid

are treated as a trustee-to-trustee transfer and are not included in income. Also, for purposes of the one-rollover-per-year limitation for IRAs, a repayment to an IRA is not considered a rollover.

Include on 2021 Form 8915-F (2020 disasters) any repayments you made before filing your 2021 return. Any repayments you made will reduce the amount of qualified disaster distributions reported on your return for 2021. Do not include on your 2021 Form 8915-F (2020 disasters) any repayments you made later than the due date (including extensions) for filing your 2021 return. If you made a repayment in 2022 after you filed your 2021 return, the repayment will reduce the amount of your qualified 2020 disaster distributions made for 2020 or 2021 and included in full in income on your 2020 or 2021 return, respectively. See [Amending Form 8915-F](#), later.

Also, if you have spread the income over 3 years, any excess repayments you reported on your 2022 Form 8915-F (2020 disasters) can be carried:

- Forward to your 2023 Form 8915-F (2020 disasters) to reduce income from qualified 2020 disaster distributions made in 2021;
- Back to your 2021 Form 8915-F (2020 disasters) to reduce income from qualified 2020 disaster distributions made in 2020 or 2021; or
- Back to your 2020 Form 8915-E if you filed 2020 Form 8915-E and are eligible to amend your 2020 return.

Example 1. On your 2020 Form 8915-E, you reported a coronavirus-related distribution of \$9,000 made to you from your traditional IRA on April 14, 2020. You spread the income over 3 years (\$3,000 in each of 2020, 2021, and 2022). You made no repayments of the distribution in 2020. In 2021, you made a repayment of \$4,500. You will report \$3,000 of the repayment on your 2021 Form 8915-F (2020 disasters). The excess repayment of \$1,500 can be carried forward to 2022 and reported on your 2022 Form 8915-F (2020 disasters) or carried back to 2020 and reported on your 2020 Form 8915-E.

Example 2. You suffered economic losses in 2020 in Hawaii as the result of DR-4549-HI. You received a qualified 2020 disaster distribution in the amount of \$75,000 on April 30, 2021, and \$15,000 on May 30, 2021. You wish to treat a contribution of \$90,000 you made on May 19, 2021, as a repayment of both distributions. Only \$75,000 can be reported as a qualified 2020 disaster distribution repayment. Repayments can only be made after the date on which the distribution was received.

Example 3. You suffered economic losses in 2020 as the result of DR-4549-HI. You received a qualified 2020 disaster distribution in the amount of \$75,000 on April 30, 2021, spreading the income over 3 years (2021, 2022, and 2023). You filed your 2021 tax return on April 10, 2022. You made a repayment of \$65,000 on April 30, 2022. You report \$25,000 of the repayment on your

2022 Form 8915-F (2020 disasters). You report the excess repayment of \$40,000 as follows. You carry back \$25,000 to 2021 Form 8915-F (2020 disasters) and \$15,000 forward to 2023 Form 8915-F (2020 disasters).

Exceptions. You cannot repay the following types of distributions.

1. Qualified disaster distributions received as a beneficiary (other than a surviving spouse).
2. Required minimum distributions.
3. Any distribution (other than from an IRA) that is one of a series of substantially equal periodic payments made (at least annually) for:
 - a. A period of 10 years or more,
 - b. Your life or life expectancy, or
 - c. The joint lives or joint life expectancies of you and your beneficiary.

Qualified Distribution for the Purchase or Construction of a Main Home in Qualified Disaster Areas

Qualified Distribution Requirements

Qualified 2020 disaster areas. To be a qualified distribution on 2021 Form 8915-F (2020 disasters) for the purchase or construction of a main home in a qualified 2020 disaster area, the distribution must meet all of the following requirements.

1. The disaster was the Alaska Severe Storm, Flooding, Landslides, and Mudslides (4585-DR-AK). Leave 2021 Form 8915-F (2020 disasters), Part IV, blank if your only qualified 2020 disaster was any other 2020 disaster (including the coronavirus).
2. The distribution is a hardship distribution from a 401(k) plan, a hardship distribution from a tax-sheltered annuity contract, or a qualified first-time homebuyer distribution from an IRA.
3. The distribution was received on January 1, 2021.
4. The distribution was to be used to purchase or construct a [main home](#) in Alaska and the main home was not purchased or constructed because of the disaster. See [Main home](#), earlier. The disaster area is the state, territory, or tribal government in which the disaster occurs.

TIP If the distribution was received in 2020 or 2019, see [2020 qualified distributions](#) or [2019 qualified distributions](#), respectively, under Amending Form 8915-F (2020 Disasters), later.

Repayment of a Qualified Distribution for the Purchase or Construction of a Main Home

Qualified 2020 disaster areas. If you received a qualified distribution for the Alaska (4585-DR-AK) disaster on January 1, 2021, to purchase or construct a main home in a qualified 2020 disaster area, you can choose to repay that distribution to an eligible retirement plan no later than June 25, 2021. For this purpose, an eligible retirement plan is any plan, annuity, or IRA to which a rollover can be made. Amounts that are repaid no later than June 25, 2021, are treated as a trustee-to-trustee transfer and are not included in income. For purposes of the one-rollover-per-year limitation for IRAs, a repayment to an IRA is not considered a rollover.

If the qualified distribution (or any portion thereof) is not repaid before June 26, 2021, it may be taxable in 2021 and may be subject to the additional 10% tax (or the additional 25% tax for certain SIMPLE IRAs) on early distributions. See the Instructions for Form 5329 to figure any tax.

You may be able to designate a qualified distribution for the Alaska (4585-DR-AK) disaster as a qualified 2020 disaster distribution if all of the following apply.

1. The distribution was made on January 1, 2021.
2. The distribution (or any portion thereof) is not repaid before June 26, 2021.
3. The distribution can otherwise be treated as a qualified 2020 disaster distribution. See [Qualified 2020 disaster distribution requirements](#), earlier.

If the distribution was received in 2019 or 2020 for any qualified 2020 disaster, see [2019 qualified distributions](#) or [2020 qualified distributions](#) under Amending Form 8915-F (2020 disasters), later.

Amending Form 8915-F (2020 Disasters)

File Form 1040-X, Amended U.S. Individual Income Tax Return, to amend a return you have already filed. Generally, Form 1040-X must be filed for a credit or refund within 3 years after the date the original return was filed, or within 2 years after the date the tax was paid, whichever is later.

Amending Form 8915-F (2020 Disasters)

Qualified 2020 disaster distributions. If, after filing your 2021 return, you make a repayment of a qualified 2020 disaster distribution, the repayment may reduce the amount of your qualified 2020 disaster distributions reported on that return. Depending on when a repayment is made, you may need to file an amended tax return to refigure your taxable income.

If you make a repayment of a qualified 2020 disaster distribution by the due date of your 2021 return (including extensions), include the repayment on a Form 1040-X amending your 2021 Form 8915-F (2020 disasters).

If you make the repayment after the due date of your 2021 return (including extensions) but before the due date of your 2022 return (including extensions) and you have spread the income over 3 years, include the repayment on your 2022 Form 8915-F (2020 disasters). However, you may file a Form 1040-X amending your 2021 Form 8915-F (2020 disasters) if either of the following applies.

- You elected on 2020 Form 8915-E, lines 9 and 17, or 2021 Form 8915-F (2020 disasters), lines 11 and 22, as applicable, to include all of your qualified 2020 disaster distributions in income in 2020 or 2021, as applicable (instead of over 3 years).
- You have spread the income over 3 years, the amount of the repayment exceeds the amount of your qualified 2020 disaster distributions that are included in income on your 2022 Form 8915-F (2020 disasters), and you choose to carry the excess back to 2021. See the examples below.

Example 1. You received a coronavirus-related distribution in the amount of \$9,000 in 2020. You choose to spread the \$9,000 over 3 years (\$3,000 in income for 2020, 2021, and 2022). On November 19, 2022, you make a repayment of \$4,500. For 2022, none of the qualified 2020 disaster distribution is included in income. The excess repayment of \$1,500 (\$4,500 – \$3,000) can be carried back to 2021. Also, instead of carrying the excess repayment back to 2021, you can choose to carry it back to 2020.

Example 2. You received a qualified 2020 disaster distribution in the amount of \$90,000 in 2021. You elected to have the full income from the distribution recognized in 2021. On November 19, 2022, you make a repayment of \$45,000. The entire \$45,000 is carried back to 2021.

Example 3. You received a qualified 2020 disaster distribution in the amount of \$90,000 in 2021. You choose to spread the \$90,000 over 3 years (\$30,000 in income for 2021, 2022, and 2023). On November 19, 2022, you make a repayment of \$45,000. For 2022, none of the qualified 2020 disaster distribution is included in income. The excess repayment of \$15,000 (\$45,000 – \$30,000) can be carried back to 2021. Also, instead of carrying the excess repayment back to 2021, you can choose to carry it forward to 2023.

2020 qualified distributions. If the coronavirus is your **only** qualified 2020 disaster, the discussion in the next paragraph and its example do not apply to you.

You may reduce the amount of a qualified distribution reported on 2020 Form 8915-E by the amount of a repayment made in 2021 before June 26. (See *Part IV—Qualified*

Distributions for the Purchase or Construction of a Main Home in Qualified 2020 Disaster Areas in the 2020 Instructions for Form 8915-E for details on qualified distributions received in 2020.) If you have already filed your 2020 return on which you reported the distribution, you should file an amended 2020 return or an amended 2020 Form 8915-E to report the repayment following the usual rules. See *Part IV* in the *Specific Instructions* in the 2020 Instructions for Form 8915-E.

2019 qualified distributions. If the coronavirus is your **only** qualified 2020 disaster, the discussion in the next paragraph and its example do not apply to you.

You may reduce the amount of a qualified distribution for a qualified 2020 disaster included in income in 2019 by the amount of a repayment made in 2021 before June 26. Because a qualified distribution can be received up to 180 days before the disaster began and repayments for that distribution can be made from the beginning date of the disaster and up to June 25, 2021, you may have a qualified distribution received in 2019 for which you are making repayments in 2021. If you have already filed your 2019 return on which you reported the distribution, you should file an amended 2019 return to report the repayment. On your amended return (Form 1040-X), you will write in "2019" for the calendar year at the top of page 1 if you are a calendar year filer and enter, in parentheses in column B of line 1, the amount of the repayment. If the distribution was from an IRA, in Part III of your amended return, enter: "The amount I reported on [2019 Form 1040 or 1040-SR, line 4b, or 2019 Form 1040-NR, line 16b, as applicable] is being reduced by a contribution made [mm/dd/2021] to an eligible retirement plan in repayment of a qualified distribution made [mm/dd/2019] under the Taxpayer Certainty and Disaster Tax Relief Act of 2020, sec. 302(b). The disaster was the [name of the qualified 2020 disaster from [Table for Qualified 2020 Disaster Areas](#)] disaster." If the distribution was from a retirement plan other than an IRA, in Part III of your amended return, enter: "The amount I reported on [2019 Form 1040 or 1040-SR, line 4d, or 2019 Form 1040-NR, line 17b, as applicable] is being reduced by a contribution made [mm/dd/2021] to an eligible retirement plan in repayment of a qualified distribution made [mm/dd/2019] under the Taxpayer Certainty and Disaster Tax Relief Act of 2020, sec. 302(b). The disaster was the [name of the qualified 2020 disaster from [Table for Qualified 2020 Disaster Areas](#)] disaster." Use the full name of the disaster. Include the state, territory, or tribal government and the FEMA DR number from [Table for Qualified 2020 Disaster Areas](#) at the end of these instructions.

Example. You received a distribution from a traditional IRA on December 12, 2019, to construct a home in the Mississippi Severe Storms, Tornadoes, Straight-line Winds, and Flooding (DR-4478-MS) disaster

area which you did not construct because of that disaster. The disaster began January 10, 2020, and the distribution now qualifies as a qualified distribution. On June 14, 2021, you made a contribution that qualifies as a repayment of the distribution. You have already filed your 2019 return, a Form 1040. You will need to file a Form 1040-X for 2019 to claim the repayment. On your Form 1040-X, you write in "2019" for the calendar year at the top of page 1 because you are a calendar year filer and, in parentheses in column B of line 1, you enter the amount of the repayment. In Part III of your amended return, enter: "The amount I reported on 2019 Form 1040, line 4b, is being reduced by a contribution made 06/14/2021 to an eligible retirement plan in repayment of a qualified distribution made 12/12/2019 under the Taxpayer Certainty and Disaster Tax Relief Act of 2020, sec. 302(b). The disaster was the Mississippi Severe Storms, Tornadoes, Straight-line Winds, and Flooding (DR-4478-MS) disaster."

Form 1040-NR. If you are amending a Form 1040-NR, only complete the address block and Part III of your Form 1040-X. Make your adjustments on a corrected Form 1040-NR on which you have written "Amended" at the top of page 1.

Specific Instructions

Married filers. If both you and your spouse are required to file Form 8915-F, file a separate Form 8915-F for each of you. If you and your spouse are both filing Forms 8915-F, the \$100,000 limits on qualified disaster distributions and the elections on lines 11 and 22 to include all qualified disaster distributions in income (and not spread them over 3 years) are determined separately for each spouse.

Name and social security number (SSN). If you file a joint return, enter only the name and SSN of the spouse whose information is being reported on that Form 8915-F.

Attach your completed worksheets. There are a total of 5 worksheets in these instructions.

- Worksheet 1A in Part I.
- Worksheet 2 in Part II.
- Worksheet 3 in Part II.
- Worksheet 4 in Part III.
- Worksheet 5 in Part III.

Attach to the back of your 2021 Form 8915-F (2020 disasters) each worksheet in these instructions you complete in determining amounts on your 2021 Form 8915-F (2020 disasters).

Required General Information

Item A. Check the box that describes the tax year of the return to which you will be attaching your Form 8915-F.

Item B. Check the box that describes the calendar year in which the disaster(s) for

which you are reporting distributions on your Form 8915-F began.

Item C. Enter the FEMA DR number from [Table for Qualified 2020 Disaster Areas](#). For example, for the 2020 Louisiana Hurricane Delta, you would enter DR-4559-LA.

Do not enter the coronavirus in item C.

Item D. Check the box if the coronavirus is a disaster you are reporting on your Form 8915-F.

Part I—Total Distributions From All Retirement Plans (Including IRAs)

Coronavirus-related distributions. You can only report qualified disaster distributions for disasters listed in item C. Coronavirus-related distributions can't be made in 2021.

List of disasters. If you are reporting no more than 2 disasters, list the FEMA number, the disaster beginning date, and the disaster ending date, for each disaster, in the spaces provided under the Part I header. If you have more than 2 disasters, check the checkbox in the asterisked footnote, and attach to the back of your Form 8915-F (2020 disasters) a statement with your name and social security number, and, for each disaster, the FEMA number, the disaster beginning date, and the disaster ending date.

Lines 1a through 1d. You may not need to complete lines 1a through 1d. See below.

When to leave lines 1a through 1d blank. Leave lines 1a through 1d blank on your 2021 Form 8915-F (2020 disasters) if either you didn't file 2020 Form 8915-E or the only disaster you reported on 2020 Form 8915-E was the coronavirus.

When and how to complete lines 1a through 1d. Complete lines 1a through 1d, as follows, if you are filing 2021 Form 8915-F (2020 disasters) and you filed 2020 Form 8915-E for disasters other than the coronavirus.

- Line 1a. Count the disasters reported on your 2020 Form 8915-E that you are now reporting in item C. Enter, on line 1a, the product of that number and \$100,000.
- Line 1b. Enter, on line 1b, the amount on 2020 Form 8915-E, line 4, column (c), if you completed that line (otherwise from the amount on 2020 Form 8915-E, line 4, column (b)) that reflects the distributions for the disasters you reported on 2020 Form 8915-E that you are now reporting in item C of your 2021 Form 8915-F. If you used Worksheet 2 in your 2020 Instructions for Form 8915-E, the amount for line 1b is figured by adding together the amounts in column (X), line 4, of that worksheet for the disasters you reported on 2020 Form 8915-E that you are now reporting in item C of your 2021 Form 8915-F.
- Line 1d. Count the disasters reported in item C of your 2021 Form 8915-F (2020

disasters) that were not reported on your 2020 Form 8915-E. Enter, on line 1d, the product of that number and \$100,000.

Line 1e. Complete line 1e as follows.

- If you have been instructed above to leave lines 1a through 1d blank, enter on line 1e the product of \$100,000 times the number of disasters you reported in item C of your 2021 Form 8915-F (2020 disasters).
- Otherwise, enter the sum of lines 1c and 1d on line 1e.

Lines 2 through 4 in column (a). If you received a distribution from a retirement plan (including an IRA), you should receive a Form 1099-R. The amount of the distribution should be shown in box 1 of Form 1099-R. Enter the amounts from box 1 of all your Forms 1099-R on the lines 2 through 4 in column (a), as applicable. But see [Are You Claiming Qualified Disaster Distributions on Both 2021 Form 8915-D and 2021 Form 8915-F \(2020 Disasters\)](#), later, for the limitations if you are completing Part I of both 2021 Form 8915-D and 2021 Form 8915-F (2020 disasters).

Lines 2 through 5 in column (b). The amounts entered on lines 2 through 5 in column (b) depend on whether the amount on line 5 in column (a) is more than the amount on line 1e.

- If the amount on line 5 in column (a) is equal to or less than the amount on line 1e, enter the amounts on lines 2 through 5 in column (a) on lines 2 through 5 in column (b).
- If the amount on line 5 in column (a) is more than the amount on line 1e, enter on lines 2 through 4 in column (b) the amounts on line 5 in column (a) adjusted by any reasonable means so that their sum on line 5 in column (b) equals the amount on line 1e.

Are You Claiming Qualified Disaster Distributions on Both 2021 Form 8915-D and 2021 Form 8915-F (2020 Disasters)?

TIP This section does not apply to you unless you are completing Part I of both 2021 Form 8915-F (2020 disasters) and 2021 Form 8915-D.

Have you completed Part I of both 2021 Form 8915-D and 2021 Form 8915-F (2020 disasters)? If so, complete your forms in this order.

- First, complete 2021 Form 8915-D.
- Your available distributions for your 2021 Form 8915-F (2020 disasters) are the distributions left after completing Part I of 2021 Form 8915-D.

See the Filled-in Worksheet 1A example below for guidance. A blank Worksheet 1A is at the end of the instructions under [Worksheets](#).

Example 1A. Arnell suffered economic losses as a result of the Puerto Rico Earthquakes (DR-4473-PR) disaster in 2019 and the Puerto Rico Hurricane Isaias (DR-4560-PR) disaster in 2020. His main home was in Puerto Rico during the disaster

Filled-in Worksheet 1A. Use if you complete Part I of 2021 Form 8915-D and of 2021 Form 8915-F (2020 disasters). Example 1A for Arnell column (a).

	Form 8915-D	(a) Total distributions in 2021	(b) Qualified 2019 disaster distributions	(c) Allocation of column (b)
2	Distributions from retirement plans (other than IRAs) made in 2021	-0-	-0-	-0-
3	Distributions from traditional, SEP, and SIMPLE IRAs made in 2021	\$140,000	\$100,000	-0-
4	Distributions from Roth IRAs made in 2021	-0-	-0-	-0-

	Form 8915-F (2020 disasters)	(a) Available distributions for this year
2	Enter, in column (a), distributions from retirement plans (other than IRAs) made this year.	-0-
3	Enter, in column (a), distributions from traditional, SEP, and SIMPLE IRAs made this year.	\$40,000
4	Enter, in column (a), distributions from Roth IRAs made this year.	-0-

period for each disaster. These events were qualified 2019 and 2020 disasters, respectively. In 2021, he received a traditional IRA distribution of \$140,000. The distribution was made on May 26. He received no other distributions in 2019, 2020, or 2021. He is completing 2021 Form 8915-D, and 2021 Form 8915-F (2020 disasters). He must complete his Form 8915-D first. He reports \$100,000 from the distribution as a qualified 2019 disaster distribution on Form 8915-D. He reports the remaining \$40,000 from the distribution as qualified 2020 disaster distributions in the 2021 Form 8915-F (2020 disasters) portion of his Filled-in Worksheet 1A for Example 1A. On lines 2 through 4 of column (a) in Part I of his 2021 Form 8915-F (2020 disasters), Arnell enters the amounts shown in column (a), lines 2 through 4, of 2021 Form 8915-F (2020 disasters) on his Filled-in Worksheet 1A for Example 1A. Because the \$40,000 is being used on 2021 Form 8915-F (2020 disasters), it should not be counted on line 7 of his 2021 Form 8915-D in determining the taxable amount of his distributions on that form.

TIP The numbers on the left border of the Filled-in Worksheet are line numbers that correspond to the lines on the indicated forms.

Line 7

The amount on line 7 should generally be apportioned into IRA and pension & annuity amounts, as applicable, and reported on your tax return as taxable distributions in accordance with Form 5329 and the instructions for that return. See the instructions for your tax return for reporting the distributions included on line 7. See also the Instructions for Form 5329.

Example. You reported a total of \$120,000 in distributions in 2021 on lines 3

and 5 in column (a). The entire \$120,000 in distributions were IRA distributions other than Roth distributions. You reported \$100,000 of those distributions on lines 3 and 5 in column (b). On line 7, you reported \$120,000 minus \$100,000 (that is, \$20,000). These distributions are IRA distributions. You will refer to your tax return, Form 5329, and their instructions for directions on how to treat these IRA distributions.

TIP If line 7 includes an amount distributed for the purchase or construction of a main home in a qualified disaster area, see [2021 Form 8915-F \(2020 disasters\)](#) next.

2021 Form 8915-F (2020 disasters). Reduce line 7 of your 2021 Form 8915-F (2020 disasters) by any amount distributed for the purchase or construction of a main home in Alaska that you did not purchase or construct because of the Alaska (4585-DR-AK) disaster. Include this amount on line 28 of your 2021 Form 8915-F (2020 disasters). See [Qualified Distribution for the Purchase or Construction of a Main Home in Qualified Disaster Areas](#), earlier. Also, see Form 5329 and the instructions for your tax return for reporting all other distributions included on line 7.

Part II—Qualified Disaster Distributions From Retirement Plans (Other Than IRAs)

See the tables under [Appendix A](#), later, for the lines in Part II you should complete, if any.

Line 9. Enter on line 9 your cost, if any. Your cost is generally your net investment in the plan. It does not include pre-tax contributions. If there is an amount in box 2a of Form 1099-R, the difference between

box 1 and box 2a of Form 1099-R is usually your cost. Enter the difference on line 9.

If there is no amount in box 2a of Form 1099-R and the first box in box 2b is checked, the issuer of Form 1099-R may not have had all the facts needed to figure the taxable amount. You may want to get Pub. 575, Pension and Annuity Income, to help figure your taxable amount.

Also see Pub. 575 if you use the Simplified Method Worksheet to figure the taxable amount of your periodic payments and you designated some of these payments as qualified disaster distributions on the Form 8915-F you are completing.

CAUTION If you have a Form 1099-R with both qualified disaster distributions and nonqualified distributions, you must separately figure the cost attributable to each distribution.

Line 11. If you don't check the box on line 11, you must spread the amount on line 10 over 3 years. By checking the box, you elect to include the entire amount in income in the year of distribution. You cannot make or change this election after the due date (including extensions) for your tax return. If you checked the box on line 22, you must check the box on line 11.

If the taxpayer died after receiving a qualified disaster distribution, the taxable amount of the distribution may not be spread beyond the year in which they died. The remainder of the distribution must be reported on the tax return of the deceased taxpayer.

Line 12. Use Worksheet 2 to figure the amount to enter on line 12 of your Form 8915-F.

Worksheet 2. Total Income From Other-Than-IRA Distributions Made in Prior Years

1. If you are completing 2021 Form 8915-F (2020 disasters), enter here and on line 12 of your 2021 Form 8915-F (2020 disasters) the amount, if any, from your 2020 Form 8915-E, line 9. If you checked the box on that line, enter -0- here and on line 12 of your 2021 Form 8915-F (2020 disasters) 1. _____

Line 14. Enter on line 14 of your 2021 Form 8915-F (2020 disasters) your total repayments—the sum of your excess repayments carried to 2021 and your repayments made for 2021. See [Worksheet 3](#), later. A repayment is made in 2021 if it is made before you filed your 2021 return, and not later than the due date (including extensions).

At any time during the 3-year period that begins the day after the date you received a qualified disaster distribution, you can repay any portion of the distribution to an eligible retirement plan that accepts rollover contributions. You cannot, however, repay more than the amount of the original distribution. See [Repayment of a Qualified Disaster Distribution](#), earlier, for details.

Worksheet 3. Use Worksheet 3 to figure the total repayment to enter on line 14 of your Form 8915-F.

Don't use Worksheet 3 to report repayments of qualified 2017, 2018, or 2019 disaster distributions.

Worksheet 3. Total Repayment of Other-Than-IRA Distributions

1. If you are completing 2021 Form 8915-F (2020 disasters), enter the amount, if any, from your 2020 Form 8915-E, line 10 1. _____
2. If you are completing 2021 Form 8915-F (2020 disasters), enter the amount, if any, from your 2020 Form 8915-E, line 9 2. _____
3. Subtract line 2 from line 1 3. _____
4. If you are completing 2021 Form 8915-F (2020 disasters), enter the total amount of any repayments you made, with respect to that form, before filing your 2021 tax return 4. _____
5. Enter the total of lines 3 and 4 here and on line 14 of your 2021 Form 8915-F (2020 disasters) 5. _____

Worksheet 3, line 4: Don't include these amounts. On line 4 of Worksheet 3, don't include any repayments made later than the due date (including extensions) for

your 2021 return or any repayments of nontaxable amounts.

Repayments reported on later returns.

If you elected to spread the income over 3 years and you repaid more than the amount on line 13 of your 2021 Form 8915-F (2020 disasters), the excess will be carried forward to your 2022 tax return. Repayments made after the due date of your 2021 return (including extensions) but before the due date of your 2022 return (including extensions) will generally be reported on your 2022 tax return if you elected to spread the income over 3 years. However, you may have to file an amended return in certain situations. See [Amending Form 8915-F \(2020 Disasters\)](#), earlier.

Part III—Qualified Disaster Distributions From Traditional, SEP, SIMPLE, and Roth IRAs

See the tables under [Appendix A](#), later, for the lines in Part III you should complete, if any.

Line 22. If you don't check the box on line 22, you must spread the amount on line 21 over 3 years. By checking the box, you elect to include the entire amount in income in the year of distribution. You cannot make or change this election after the due date (including extensions) for your tax return. If you checked the box on line 11, you must check the box on line 22.

If the taxpayer died after receiving a qualified disaster distribution, the taxable amount of the distribution may not be spread beyond the year in which they died. The remainder of the distribution must be reported on the tax return of the deceased taxpayer.

Line 23. Use Worksheet 4 to figure the amount to enter on line 23 of your Form 8915-F.

Worksheet 4. Total Income From IRA Distributions Made in Prior Years

1. If you are completing 2021 Form 8915-F (2020 disasters), enter here and on line 23 of your 2021 Form 8915-F (2020 disasters) the amount, if any, from your 2020 Form 8915-E, line 17. If you checked the box on that line, enter -0- here and on line 23 of your 2021 Form 8915-F (2020 disasters) 1. _____

Line 25. Enter on line 25 of your 2021 Form 8915-F (2020 disasters) your total repayments—the sum of your excess repayments carried to 2021 and your repayments made for 2021. See [Worksheet 5](#) below. A repayment is made in 2021 if it is made before you filed your 2021 return, and not later than the due date (including extensions).

At any time during the 3-year period that begins the day after the date you received a qualified disaster distribution, you can repay any portion of the distribution to an eligible retirement plan that accepts rollover contributions. You cannot, however, repay more than the amount of the original distribution. See [Repayment of a Qualified Disaster Distribution](#), earlier, for details.

Worksheet 5. Use Worksheet 5 to figure the total repayment to enter on line 25 of your Form 8915-F.

Don't use Worksheet 5 to report repayments of qualified 2017, 2018, or 2019 disaster distributions.

Worksheet 5. Total Repayment of IRA Distributions

1. If you are completing 2021 Form 8915-F (2020 disasters), enter the amount, if any, from your 2020 Form 8915-E, line 18 1. _____
2. If you are completing 2021 Form 8915-F (2020 disasters), enter the amount, if any, from your 2020 Form 8915-E, line 17 2. _____
3. Subtract line 2 from line 1 3. _____
4. If you are completing 2021 Form 8915-F (2020 disasters), enter the total amount of any repayments you made, with respect to that form, before filing your 2021 tax return 4. _____
5. Enter the total of lines 3 and 4 here and on line 25 of your 2021 Form 8915-F (2020 disasters) 5. _____

Worksheet 5, line 4: Don't include these amounts. On line 4 of Worksheet 5, don't include any repayments made later than the due date (including extensions) for your 2021 return or any repayments of nontaxable amounts.

Repayments reported on later returns.

If you elected to spread the income over 3 years and you repaid more than the amount on line 24 of your 2021 Form 8915-F (2020 disasters), the excess will be carried forward to your 2022 tax return. Repayments made after the due date of your 2021 return (including extensions) but before the due date (including extensions) of your 2022 return will generally be reported on your 2022 tax return if you elected to spread the income over 3 years. However, you may have to file an amended return in certain situations. See [Amending Form 8915-F \(2020 Disasters\)](#), earlier.

Part IV—Qualified Distributions for the Purchase or Construction of a Main Home in Qualified Disaster Areas

2021 Form 8915-F (2020 disasters).

On 2021 Form 8915-F (2020 disasters), qualified distributions can only be reported for the Alaska (4585-DR-AK) disaster.

Complete Part IV of 2021 Form 8915-F (2020 disasters) if, on January 1, 2021, you received a qualified distribution described in [Qualified 2020 disaster areas](#) under *Repayment of a Qualified Distribution for the Purchase or Construction of a Main Home*, earlier, for the Alaska (4585-DR-AK) disaster. You must complete the required lines of Part IV if you received a qualified distribution for the Alaska (4585-DR-AK) disaster on January 1, 2021, even if you made no repayments in 2021. Any portion of the qualified distribution not repaid before June 26, 2021, for the Alaska (4585-DR-AK) disaster will not be allowed the special tax benefits available to qualified distributions.

For qualified distributions received in 2019 for a qualified 2020 disaster, see [2019 qualified distributions](#) under *Amending Form 8915-F (2020 Disasters)*, earlier.

If you are required to file 2021 Form 8606, complete that form before you complete Part IV.

Note. A distribution for the purchase or construction of a main home may be treated as a qualified 2020 disaster distribution in certain circumstances. See [Qualified 2020 disaster areas](#) under *Repayment of a Qualified Distribution for the Purchase or Construction of a Main Home*, earlier.

Line 27. If you check the “Yes” box, but are not required to complete lines 28 through 32, you must still file the required Form 8915-F to show that you received a qualified distribution.

Line 28. Enter on line 28 your qualified distributions (see [Qualified 2020 disaster areas](#) under *Qualified Distribution for the Purchase or Construction of a Main Home in Qualified Disaster Areas*, earlier).

Don't include any distributions you designated as qualified 2020 disaster distributions reported on line 8 or line 20 of your Form 8915-F. Also, don't include any amounts reported on 2021 Form 8606.

Line 29. Enter on line 29 your cost, if any. Your cost is generally your net investment in the plan. It does not include pre-tax

contributions. If there is an amount in box 2a of Form 1099-R, the difference between box 1 and box 2a of Form 1099-R is usually your cost. See Pub. 575 for more information about figuring your cost in the plan.

In many cases, a hardship distribution from a 401(k) plan or a tax-sheltered annuity contract will not have any cost.

If you received a first-time homebuyer distribution from an IRA, don't enter any amount on line 29. Any cost or basis in an IRA is figured on 2021 Form 8606 if you made nondeductible contributions.

If you have a Form 1099-R with both qualified distributions and nonqualified distributions, you must separately figure the cost attributable to each distribution.

Line 31. You can repay any portion of a qualified distribution to an eligible retirement plan that accepts rollovers but the repayments must be made within the time frame specified in [2021 Form 8915-F \(2020 disasters\)](#), earlier, in this part (also, see [Repayment of a Qualified Distribution for the Purchase or Construction of a Main Home](#), earlier). You can't, however, repay more than the amount of the original distribution.

Enter on line 31 the amount of any repayments you make within the time frame specified. Don't include any repayments treated as rollovers on 2021 Form 8606 or any repayments of nontaxable amounts.

Line 32. Most distributions from qualified retirement plans (including IRAs) made to you before you reach age 59½ are subject to an additional tax on early distributions and are reported on Form 5329. Qualified distributions for the purchase or construction of a main home in a qualified 2020 disaster area that were not repaid to an eligible retirement plan within the time frame specified in [2021 Form 8915-F \(2020 disasters\)](#), earlier, in this part, may be subject to this additional tax unless you qualify for an exception. See the Instructions for Form 5329 for information on exceptions to this tax. If you have not repaid the distribution before the specified end date, you may be able to designate the qualified distribution as a qualified disaster distribution. See [Qualified 2020 disaster areas](#) under *Repayment of a Qualified Distribution for the Purchase or Construction of a Main Home*, earlier.
